## MAHAVIR JAYANTI

*Mahavir Jayanti is the most important day in Jainism.*

***History of Mahavir Jayanti***

*The holiday is celebrated on the 13th day of the waxing (rising) half of Hindu month of Chaitra which usually occurs in either late March or early April in the Gregorian calendar.*

*Mahavir Jayanti celebrates the birth of Mahavira, a contemporary of the Buddha, and the 24th and last Tirthankara (great sages).*

*Mahavira, known originally as Vardhamana, was born in either 599 BC or 615 BC. The Digambar school of Jainism say that Lord Mahavira was born in the year 615 BC, but the Svetambaras believe that He was born in 599 BC. However, both sects believe that Mahavira was the son of Siddhartha and Trisala.*

*According to the legend, Devananda, wife of a Brahmin named Rishabhdeva, conceived him, but the gods transferred the embryo to the womb of Trisala.*

*According to Svetambara sect, the expectant mother was believed to have seen 14 auspicious dreams. (According to Digambara sect it was 16 dreams). Astrologers interpreted these dreams and predicted that the child would be either an emperor or a Teerthankar.*

*For over a decade, he was an ascetic, wandering about, begging for food, and wearing little. Then he found enlightenment, became a Tirthankara and taught for 30 years before his death.*

*The present-day ascetic religion of Jainism reveres Mahavira as their key prophet. Practised by over 3.5 million people, Jainism. They follow a path of non-violence towards all living beings. Some may wear face masks to prevent the chance of inadvertently killing an insect while breathing in.*

## MOTHER'S DAY

---

For all the times you gently picked me up,

When I fell down,

For all the times you tied my shoes,

And tucked me into bed,

Or needed something

But put me first instead.

For everything we shared, the dreams, the laughter, and the tears,

I love you with 'Special love'

That deepens every year

Happy Mother's Day Mom,

I love you the most in the world!

# GLOBAL WARMING

Global warming is like Earth getting a fever and just like when we're sick, it's important to understand why and how to help. It happens because of too much heat-trapping gases called greenhouse gases, in the air. These gases come from things we do everyday, like driving cars, using electricity, and cutting down trees. Global warming makes the planet hotter. This extra heat melts ice caps, raises sea levels, and makes weather more extreme. It's bad for animals, plants and people too!

But don't worry there's hope! We can all help by using less energy, planting trees, and recycling. Even small actions like turning off lights and walking instead of driving can make a big difference. Together we can cool down our Earth and keep it healthy for ever!

## "स्कूल की दोस्ती"

---

एक दिन जिंदगी ऐसे मुकाम पर पहुँच जाएगी।

दोस्ती तो सिर्फ यादों में ही रह जाएगी।

हर बात दोस्तों की याद दिलायेंगी।

कि हँसते हँसते फिर आँख नम हो जाएगी।

नए कपड़े, बड़ी गाड़ी से ज़िंदगी तो मस्त हो जाएगी

पर स्कूल में दोस्तों संग की मस्ती कहा से पाएगी।

जी लेंगे खुल के इस पल को मेरे दोस्त।

क्योंकि खर्चा करने पर भी ये पल नहीं पा पायेंगे।

क्यूँ के ज़िंदगी स्कूल की खुशियों को फिर से नहीं दोहराएगी।

# NATURE WALK

# Show and Tell!

Our Pre - Primary students participated in Show and Tell Activity with full enthusiasm. It was conducted on 12th April, 24. Show and Tell sets the stage for children to become comfortable when speaking in public.

Our topic was "FRUITS". The main aim of this activity was to help build their self confidence and self esteem. It enabled them to improve their descriptive skills by communicating feelings, thoughts and emotions with words.

It was an interesting and thrilling experience for our children sharing their feelings with peers which provided fun and comfortable arena of learning for everyone.
